

Head of School Report BOD Meeting – Jan 16 2023

1. Substation & Newbuild update

1.1 Substation

This is still waiting on a handover of the land to Enemalta

1.2 Newbuild works

Works have commenced. Enemalta is due to install new cables which will replace the current ones.

1.3 Air-conditioners are being installed into High School offices, classrooms, including the gym and library. Estimated completion is tied in with the substation works & Enemalta, currently looking like they can be switched on by the end of March.

Community communication:

In March we will run an in-person parent meeting to share updates and overview of the project with the community. This will be attended by the Project Manager.

2. Update from Guidance Counselling

The Class of 2023 already has some exciting options in store which cover a range of pathways. Some are planning their Gap Year and will be working in their field of interest to gain more experience or taking time to travel before uni. Some have military duty to complete. Some have conditional offers in the UK at places like Kings, Bath, Warwick, Manchester, Leeds, Bristol, Exeter & Cardiff, Instituto Marangoni London, Westminster, Kent and in the Netherlands at Groningen, University of Amsterdam, The Hague and Maastricht.

3. Achievements

Our JAYE teams were really successful at the Junior Achievement Product Launch Event held in December. The Lightbridge team (pictured) won first and the Colori team came second.

4. January Professional Development Day

This day was used by Secondary staff for consolidated planning time in departments for MYP Units and in Elementary for Guided Reading training.

Totty Aris, Head of School, Jan 13 2023
